Commissioner for Patents

See attached.

  
Henry M. Johnson, III  
Primary Examiner  
Art Unit: 3739

Applicant and the assignee of this application are required under 37 CFR 1.105 to provide the following information that the examiner has determined is reasonably necessary to the examination of this application.

The information is required to document the level of skill and knowledge in the art of light therapy as a preventative treatment.

In response to this requirement, please provide a copy of each of the following items of art referred to in the specification on page 3. Reference is made to research investigating the effect of visible light on sun-damaged skin. The details of this research, results, conclusions and references and/or bibliography are requested.

The applicant contemplates (on page 7, lines 18-22 of the specification) that radiation may be applied as a prophylactic measure to obviate any possible Xray or UV radiation damage because of exposure to the sun. Applicant is required to provide the examiner with any and all documentation, known information, etc. related to radiation as a prophylactic measure.

In responding to those requirements that require copies of documents, where the document is a bound text or a single article over 50 pages, the requirement may be met by providing copies of those pages that provide the particular subject matter indicated in the requirement, or where such subject matter is not indicated, the subject matter found in applicant's disclosure.

The fee and certification requirements of 37 CFR 1.97 are waived for those documents submitted in reply to this requirement. This waiver extends only to those documents within the scope of this requirement under 37 CFR 1.105 that are included in the applicant's first complete communication responding to this requirement. Any supplemental replies subsequent to the first communication responding to this requirement and any information disclosures beyond the scope of this requirement under 37 CFR 1.105 are subject to the fee and certification requirements of 37 CFR 1.97.

The applicant is reminded that the reply to this requirement must be made with candor and good faith under 37 CFR 1.56. Where the applicant does not have or cannot readily obtain an item of required information, a statement that the item is unknown or cannot be readily obtained may be accepted as a complete reply to the requirement for that item.

This requirement is subject to the provisions of 37 CFR 1.134, 1.135 and 1.136 and has a shortened statutory period of 2 months. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

FREDERICK R. SCHMIDT  
DIRECTOR  
TECHNOLOGY CENTER 3700
